PROMINEO TECH

Career Services Assignment 2 – Elevator Pitch

Points possible: 50

Instructions: Follow the steps below to set up create and practice your elevator pitch. An elevator pitch is your answer to the interview question *Tell me about yourself*. Make sure you speak as if you are in an interview. Tailor your pitch to make it relevant to an interview for a software developer position.

1. Write your elevator pitch below. Your pitch should:

    a. be clear and concise

    b. be less than 30 seconds

    c. be a summary of who you are

    d. contain something personal (i.e. a hobby, passion, etc.)

My Elevator Pitch:

Hi my name is Ricky. I recently graduated from Promineo-Tech as a Back-End Software Developer. Within my time with Promineo, I learned how to program with Java, create relational databases with MySQL and how to design web API's with Spring. I have always had a strong interest in computers from an early age. In fact some would say I'm a PC addict, since I been a religious user since the age of ten. When I'm not behind a computer screen, I enjoy to spend my time in the outdoors hiking, camping or simply gardening in my backyard. But just to clarify, as a nerd I do love to spend my time behind my computer screen.

2. Practice your elevator pitch out loud. Record your elevator pitch and upload it to the internet. You can use whichever tool you'd like to upload (Facebook, YouTube, DropBox, etc.), just make sure you can give someone a link to view the file. Paste the link to your uploaded recording below.
